SECURED BY ROYAL LETTERS PATENT.
MORRIS'S AUSTRALIAN
CHAMPION HORSE OINTMENT.

THIS Article is now patronised by the most fashionable Horse Breeders and the largest Stations in Australia. Local Testimonials too well known to publish in columns. Price in Cooktown, 25s. per dozen, or 2s. each retail.
Sydney, April 9, 1877.—Mr. A. Norris.—Dear Sir, I have used the sample of Ointment that you left with me, and have no hesitation in recommending it as a first-class article. All I can say for it is that I am completely cured of it; let me know where I can procure some more of it.—I am, dear Sir, yours truly, E. MANDISON, Auctioneer and Commission Agent, late Gibson's Horse Repository, &c.

Wilson's Circus, Melbourne, December 7, 1876.—Mr. Adolphus Norris.—Dear Sir: The box of your Queensland Champion Ointment I have tried on several horses belonging to the troupe, especially for cracked heels cut by the ropes, and give you the palm of introducing the best article I have used in my experience amongst horses.—I am, yours truly, ROBERT JOHNSON.

Ballarat, January 8, 1877.—Mr. Norris.—Dear Sir: The Horse Ointment I had from Mr. Malton, your agent, has quite cured a valuable horse of mine, with a very bad knee, after being told to destroy the horse by a skillful veterinary surgeon here. It is the best thing I have ever used for healing sores, and can recommend it to all owning horses.—I am, dear Sir, yours obliged, J. ADAMS, cab proprietor, Sebastopol.

Craig's Royal Stables, Ballarat, November 27, 1876.—Mr. A. Norris.—Dear Sir: Having used the Champion Horse Ointment, sent by you from Queensland through your agent, Mr. Malton, I have in every case found it satisfactory and quite up to the recommendations of its testimonials, and am of opinion that it will be a boon to owners of horses generally.—I am, yours truly, E. CUTLER.

Cooktown, October 21, 1876.—Mr. A. Norris, chemist, Cooktown.—Dear Sir: I have used your Horse Ointment on my horses for scabs and sore backs, and have found it to be the best cure for those troubles I have met with in my experience of 30 years as a farrier.—I am, yours, &c., JAMES MORRIS, farrier, Cooktown.
To Mr. Malton.—Dear Sir: I have tried the Morris's Champion Horse Ointment prepared by you, and it has given me every satisfaction. It has proved itself to be a first-class ointment. The scabulous horse All Fench having his knee badly cut, I applied your Ointment immediately, and with very few applications the bruise could not be detected. N.B.—Owners of horses should not be without this invaluable Ointment.—I am, dear Sir, yours truly, ROBERT ORR, Bridge street, Ballarat.

Cooktown, July 4, 1876.—Dear Sir: You may make use of this as you please, that I consider your Horse Ointment the best healing agent I have used for bad wounds on horses during my long association with veterinary surgeons, not only in Queensland, but also in New South Wales, and words of recommendation.—JAMES NEILL, farrier.—Mr. A. Norris, chemist.

Wholesale Agents:—W. H. Malton, druggist, Ballarat, Melbourne; Felton, Grimwade, and Co., wholesale druggists, Sydney; Wm. Taylor and Co., wholesale druggists, Brisbane; Berkeley, Taylor, and Co., wholesale druggists.

N.B.—This Ointment is now found to be the best article for old sores that other means have failed with, by many persons on themselves, many cures having been effected.

SANDER & SONS' EUCALYPTI EXTRACT.
UNDER the Distinguished Patronage of his Majesty the King of Italy, at Rome, according to communication received from the Consul General for Italy, at Melbourne, upon instructions from the Minister for Foreign Affairs, dated 13th March, 1876, The Extract of the Eucalyptus Globulus, manufactured solely by Messrs. SANDER & SONS, Sandhurst, Victoria, recommends itself by the following Declaration and Testimonials:—
Epitome of declaration made before Morris Cohn, J.D., on the 27th October, 1876, at Sandhurst:—The medical gentleman had attended the son of Mr. Raskb of Ipswich, for nine weeks, and declared that amputation of the leg injured by an axe was absolutely necessary. At this juncture Mr. Raskb called on Messrs. SANDER & SONS, procuring some of their Extract of the Eucalyptus Globulus, and by the application of the same he had the satisfaction of seeing his son within a fortnight out of all danger, and he has now quite recovered.

SANDHURST, 2nd October, 1877.
I certify that I have used Mr. Sander & Sons' Extract of the Eucalyptus Globulus in all affections of the throat, inflammation, bronchitis, rheumatic swellings, inflammation of the breasts after confinement, toothache, and diarrhoea, and can most strongly recommend it in all cases as stated above. Signed, JOHN CHURCHMAN, M.D., R.C.S.E., Health Officer, 4th October, 1876, at Melbourne. I fully certify that the above is the signature of Dr. John Churchman, Health Officer for the City of Sandhurst, Victoria. Signed, ALEXANDER BAYNE, Mayor.

My Extract from *London Evening News*:
Mr. Gieselin, residing near Sydney Gardens, had a severe cold in November, could scarcely breathe, and could get no relief. Cured after three applications of the extract.
The same gentleman suffered eight years from rupture, and all medical skill proved ineffectual in giving relief. Cured after taking extract internally for six months.
Mr. D. O'Shaughnessy, residing near the Sandhurst Gaol, suffering from wounds for six months, was cured by the use of the extract within four weeks.
A man having his arm bruised severely at a crushing machine in Long Gully, applied the extract, and the accident did not even necessitate as much as an interruption in his attendance at work.
Mr. Weppner, in Collingwood (Rumyngham), informed the manufacturers that the extract applied twice restored health to her daughter, eleven years of age, who had been rushed and trampled upon by a cow.
In November Mr. Weaver, from the Barracks Arm's, Black Creek, brought information of a cure of delirium caused by sunstroke, which took place in the family of Mr. Ryan, butcher, of Black Creek.
The wife of Mr. Fickel suffered in the heat of the time from a swelling which had formed a lump of considerable size, doubling her from one to ten minutes. She resorted to the swelling completely by a continued application of the extract.
The *Shoulder Pains* of 1st December, 1877, state:—Last week the eldest boy of Mr. Morgan awoke in the night crying with excruciating pain. The extract was applied, and the little fellow was cured in ten minutes.
Mr. French, of Cook's station, suffered from bad scabs and pains in the head. Two drops of the extract were put in the ear and some rubbed round the ear, and the pain instantly disappeared.
Mr. Pritchard, at Mount Jeffcott, was laid up for nearly a fortnight with inflammation of the eye, and was a great agony. The extract was used, and in a few days the inflammation disappeared.
The *Evening Times* has reported cures of neuralgia by the use of the extract at Clonmel.

A FEMALE CRUSOE.

The San Francisco Call contains an interesting account of an Indian woman who was accidentally abandoned on San Nicholas Island, off the coast of Southern California, and spent eighteen years alone before she was rescued. The fact of her existence was discovered by a man who went from the mainland to hunt for otters, and who found footprints sunk deeply in the ground. He was unable to follow up these indications for nearly three years, when one of a party who accompanied him came suddenly upon the object of their search. She was in a small circular enclosure made of brushwood, about 5ft. high and 6ft. in diameter, with a small opening on one side. She was clothed with a garment made of skins of the shag, a species of duck that can neither walk nor fly. This garment reached almost to her ankles when she stood erect. She was sitting cross-legged skinning seal-blubber with a rude knife made of a piece of hoop-iron driven into a piece of wood. There was no covering on her head, except a thick matted mass of hair, of yellowish-brown colour, probably owing to exposure to the sun and the weather; it was short, as if the ends had rotted off. There were some wild dogs on the island, a few of which kept near her, and seemed to regard her as a mistress. She had lived on a plant resembling cabbage, called by Californians *pala santo*, and a root known by the name of *curcumita*, also blubber of the various kinds of seals.

circumstances, also blubber of the various kinds of seals, &c. She had a rude apparatus for catching shell fish, and strong fishing-lines made of seal sinews, which seemed to indicate that she fished in the ocean. The expression of her face was pleasing, her features were regular, her complexion much fairer and her form more symmetrical than that of the Indian women on the adjoining mainland. Some suspect that she belonged to a tribe much further north. She could not understand anything said to her in any of the Indian dialects of South California, but she had a wonderful capacity for conversing by signs. She retained all her teeth, but they were worn low, supposed to be due to her chewing tough and hard articles of food. Her age appeared to be fifty years. She bowed to all who came near her, greeting them with a smile. She freely accompanied her discoverers to their vessel, but her conduct at once convinced them that she retained the virtue of female modesty. She showed singular dexterity in making water-vessels from grass and asphaltum, a substance which is plentiful both on the island and the mainland. She seemed to recognize various appliances of civilization. She died about seven weeks after reaching the mainland, partly from the effects of a fall, and partly from dysentery, brought on by eating fruits and vegetables. Padre Gonzalez, the superior of the mission of Santa Barbara, has sent her dress of shag-china, her basket, and implements to Rome, to the Museum of the Propaganda.
